PACIFIC

BUSINESS COLLEGE,

MECHANIC'S INSTITUTE,

POST STREET, Between Montgomery & Kerney
SAN FRANCISCO.

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,

A CARD

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support or the community.

"FOUND DEAD IN THE STREET,"

The labor is over and done
The sun has gone down in the west;
The birds are asleep, every one,
And the world has gone to its rest—
Sleepers on beds of down,
'Neath cover of silk and gold,
Soft, as on roses new blown,
Slept the great monarch of old!
Sleepers on mother's breasts,
Sleepers happy and warm,
Cosy as birds in their nest,
With never a thought of harm!
Sleepers in garrets high,
'Neath coverlet ragged and old,
And one little sleeper all under the sky.
Out in the night and the cold!
Alone in the wide, wide world,
Christless, motherless he;
Begging or stealing to live, and whirled
Like a waif on an angry sea.

The daisy looks up from the grass,
Fresh from the fingers of night,
To welcome the birds as they pass,
And drink in fresh rivers of light,
Sleepers on mother's breast,
Waken to summer and mirth;
But one little sleeper has gone to his rest,
Never to waken on earth—
Dead—found dead in the street,
All forsaken and lorn;
Damp from the head to the feet,
With the dews of the sweet May morn.

Dead—for the want of a crust!
Dead—in the cold night air!
Dead—and under the dust,
Without ever a word of prayer;
In the heart of the wealthiest city
In this most Christian land,
Without ever a word of pity,
Or the touch of a kindly hand!

A VALUABLE TABLE.

Barrel Measure.—Cider and other liquids 30 gallons. Rice, 600 pounds. Flour, 196 lbs. Powder, 25 lbs.

Bushel Measure.—Wheat, beans, potatoes and clover seeds, 60 lbs. Corn, rye, flax seed and onions, 56 lbs. Corn on the cob, 70 lbs. Buckwheat, 52 lbs. Barley, 48 lbs. Hemp seed, 44 lbs. Timothy seed, 45 lbs. Castor beans, 46 lbs. Oats, 35 lbs. Bran, 20 lbs. Blue grass seed, 14 lbs. Salt, 85 lbs. Dried apples, 24 lbs. Dried peaches, 33 lbs.

A hoop 18½ inches diameter, 8 inches deep holds a Winchester bushel. A box 12 inches square, 7 and 7 1-32 deep, will hold half a bushel.

A Gallon Measure.—An English imperial gallon, is 10 lbs, of distilled water at 62 degrees Fahrenheit, when the barometer stands at 30 degrees.

Land Measure.—An English Imperial acre is 4,840 square yards, or 160 square rods. A square of 13 rods upon each side is commonly counted an acre; it is 9 rods over measure. A square 22 yards upon each side is one-tenth of an acre.

English acre, 4,840 square yards; Scotch, 6,150; Irish, 7,840; Hamburg, 11,545; Amsterdam, 9,722; Dantzic, 6,650; France, (hectare) 11,960; Prussia, (morgen) 3, 053.

Government Land Measure.—A township, 36 sections, each a mile square.

A section, 640 acres.

A quarter section, half a mile long, north and south, and a quarter of a mile wide, 80 acres.

A sixteenth section, a quarter of a mile square, 40 acres.

The sections are all numbered one to thirty six, commencing at the northeast corner.

The sections are divided in quarters, which are named by the cardinal points. The quarters are all divided in the same way. The description of 40 acre lot would read: The south half of the west half of the southwest quarter section 1 in township 24, north of range 7 west or as the case might be.

Mile Measure.—A standard English mile, which is the measure that we use, is 5,280 feet in length, 1,760 yards, or 320 rods. A strip one rod wide and one mile long is two acres. By this it is easy to calculate how much land is taken up by roads, and also how much is wasted by fences.

A "Sabath day's journey," 1,152 yards, 18 yards less than two-thirds of a mile.

A day's journey, 33½ miles.

A reed, 10 feet, 11½ inches.

A palm, 3 inches.

A fathom, 6 feet.

A Greek foot is 12½ inches.

A Hebrew foot is 1 212 of an English foot.

A cubit is two feet.

A Great cubit is 11 feet.

An Egyptian cubit is 21,888.

A span is 10,944.

Board measure.—Boards are sold by superficial measure, at so much per foot of one inch or less in thickness, adding one-fourth to the price of each quarter inch thickness over an inch.

Grain Measures in Bulk.—Multiply the width and length of the pile together, and that product by the heighth, and divide by the 5,150, and you have the contents in bushels.

A Tun Weight.—In S. F. a tun is 2,000 lbs. In most places a tun of hay, etc., is 2,240 lbs.

A tun of round timber is 40 cubic feet; of square timber, 54 cubic feet.

"A quarter" of corn or other grain sold by the bushel is eight imperial bushels, or a quarter of a tun.

A tun of liquid measure is 252 gallons

A firkin of butter is 56 lbs; a tub of butter is 84 lbs.

A bale of cotton in Egpyt is 90 lbs. In America a commercial bale is 400 lbs, though cut up to vary from 280 420 in different localities.

A bale or bag of Sea Island cotton is 300 lbs.

Wool.—In England, wool is sold by the sack or boll of 22 stone; which, at 14 lbs the stone, is 308 lbs.

A pack of wood is 17 stone 2 lbs, which is rated as a pack load for a horse. It is 240 lbs. A tod of wool is 2 stone of 14 lbs. A wey of wool is 6½ tods. Two weys a sack. A clove of wool is half a stone.

The Stone Weight is 14 lbs when weighing wool, feathers, hay, etc., but a stone of beef, fish, butter, cheese, is only 8 lbs.

A Last is an English measure of various articles.

A last of soup, ashes, herrings and some similar things, is 12 barrels.

A last of corn is 12 quarters

A last of gunpowder, is 24 barrels.

A last of flax or feathers, 1,700 lbs.

A last of wool, is 12 sacks.

Coal.—A chaldron is 58⅜ cubic feet, or by measure 36 heaped bushels. A heaped bushel of anthracite coal weighs 80 lbs, making 2,880 lbs, to the chaldron.

Wood.—A cord of wood is 128 solid feet, in this country and England. In France it is 576 feet. We cord wood 4 feet long, in piles four feet by eight.

In New Orleans wood is retailed by the pound and to a limited extent in New York. It is also sold by the barrel. A load of wood in New York is 42⅝ cubic feet, or one-third of a cord.

Wood is sold in England by the stack, skid, quintal, billet and bundle.

A stack is 108 solid feet, and usually piled 12 feet long, 3 feet high, and 3 feet wide.

A quintal of wood is 100 lbs.

A skid is a round bundle of sticks, 4 feet long. A one notch skid 23 inches. A three notch skid 28 inches. A four notch skid 33 inches. A five notch skid 38 inches.

A CASE OF SUSPENDED ANIMATION.—A week or two ago the wife of a very respectable merchant residing on Twelfth street, in this city, died after a short illness, and the usual arrangements were made for the funeral services. One of the city undertakers, at the request of the husband, provided a very handsome coffin for the deceased, in which the lifeless remains were placed, and they were permitted to remain in a room. During the ensuing night, however, one of the watchers, who had heard and read of reports of cases of suspended animation and being imbued with a curiosity in the premises, decided to ascertain for herself whether there was any probability of truth in such reports.

A favorable opportunity presented itself for the fulfillment of her schemes, and having satisfied herself that she was really alone with the corpse, she obtained a small looking-glass and laid it upon the face of the deceased. To her great surprise there appeared evidences of breathing upon the face of the glass, and she resolved, for fear of deception, to make another test with another glass. The operation being repeated, the same sighs were manifested, and she revealed her discoveries to the other watchers. Each in turn tried the glass, and each had the satisfaction of observing precisely what the first did.

Of course in the morning the whole affair was discussed with the family of the deceased, and it then occurred that a long time ago a young man, a member of the woman's family, had died, and previous to the burial the corpse had rolled over upon one side, showing signs of life, and the case was declared to have been one of suspended animation by the best medical testimony that could be procured Under all these circumstances it was deemed by the husband advisable to defer the funeral ceremonies, and accordingly notice was given that the interment would not take place at the time previously announced. The corpse was left in the coffin several days, and upon the fifth day after the supposed death, signs of life were so numerous that the body was removed to a bed, where it gradually became warmer, and finally its previous deadly expression left it altogether. The ensuing day the woman opened her eyes, spoke on the third, and she is now in a fair way of recovery. Three well known medical gentlemen are now engaged in examining this case thoroughly, and when their labors are completed we are promised their written opinions concerning the affair.—*Detroit Tribune.*

THOSE who are anxious to know how the name "devil" first came to be applied to printers' apprentices, will be enlightened by the following paragraph:

When Andrew Manutius set up in business as a printer in Venice, he came in possession of a negro boy. This boy was known over the city as the "little black devil," who assisted the mysterious biblofactor, and some of the ignorant persons believed him to be none other than the embodiment of Satan, who helped Aldus in the prosecution of his profession. One day, Manutius, desiring to dispel this strange hallucination by publicity, displayed the young "imp" to the poorer classes. Upon this occasion, he made this short but characteristic speech: "Be it known to Venice that I, Aldus Manutius, printer to the Holy Church and Doge, have this day made public exposure of the *printer's devil.* All those who think he is not flesh and blood, come and pinch him."

A TEACHER!—An Eastern agricultural paper warns its readers against going to California, whither many are now looking so anxiously. It says that "California is recommended because plowing can be done in February, but you may be sure that where plowing is done so early the crops are generally light." That editor is a poor teacher of an agricultural people. He does not know that plowing and seeding is usually completed before February, and that the lightest crops will be double the best ones of the Eastern States. He concludes his notice of our State by saying: "The California vineyards are bearing an unexpected fruit. Many of the best young men have become drunkards because they were told that drunkenness is unknown it wine-growing countries"—all of which information will be appreciated by our readers.—*Capital Reporter.*

TIMBER AT COOS BAY.—Concerning the timber of Coos Bay, the following extract, from a letter in the Salem *Unionist,* makes some interesting statements:

It is surprising to see such excellent and inexhaustible amount of cedar and ash timber without any effort being made to bring it to market, when that kind of lumber brings such exorbitant prices. Since the close of the Port Orford mill the cedar trade has been in the hands of one man. Mechanics in San Francisco using ash, ship it from the States, because they are not aware that it can be had on this coast.

A GENTLEMAN was chiding his son for staying out late at nights—or rather early of next mornings—and said; "Why, when I was your age my father would not let me go out of the house after dark!" "Then you had a duce of a father—you had" sneered the young profligate. Whereupon the father very rashly vociferated: "I had a confounded sight better'n you, you young rascal!'

A STRANGE STORY.

Strange stories have been from time to time related of jewels, rings, and even watches, found in fishes when bought and opened, and subsequently returned to their owner. Whether or not these stories are true, we of course cannot say but we vouch for the entire truth of the following related by a clergyman, himself the hero of the story, to a wondering circle of listeners. Though expectant of something strange as a *finale,* they were by no means prepared for the denouement:

"It was one summer twilight," said he, "that standing on a rustic bridge which spanned a well known trout stream near my father's house, I won from the girl I long loved the promise to be my wife. She was something of a coquette and I had a rival in the field; so to make the matter sure to myself and evident to others I drew from her hand a ring which she had often declared she would only give to her betrothed lover, and transferred it to my own finger."

"It was my mother's engagement ring," said she, half in earnest and half playfully, "and there is a superstition connected with it. So long as you keep and wear it we are engaged; but if you lose it or part with it in any way, the engagement is broken. So take good care."

"Some weeks after she went away on a visit, and then my great consolation was to haunt that favorite spot on the bridge which had been our trysting place. Once, leaning over the railing, and thinking of our betrothal, I took from my finger the treasured ring and gazed fondly on the initials—her's as well as her mother's—engraven within. In attempting to replace it the golden circle fell from my grasp into the water.

Only a lover under such circumstances can imagine how I felt. Day and night I mourned disconsolate, and my great dread was her returning and finding the ring missing. Yet strange to say I had a singlar presentiment or intuition that I should recover it though by what means I had no idea.

Not long after, fishing in the same stream some distance below the bridge, I fell to thinking of my lost ring. If I could fish it up—and just then there was a quiver, a tug, a pull and a struggle at my line, and after some play I drew out a large, fine trout. At the sight of him the thought suddenly and unaccountably flashed into my mind that the ring—my lost ring—was to be found in its body. I cannot account for the feeling, but I know it was heightened into almost a conviction when, upon grasping the victim, I perceived on a portion of his body a singular protuberance, and felt there beneath the skin, something like a hard substance.

I seized my large pocket clasp-knife. Eagerness had made me cruel, yet not more so than if I had let my victim die a slow and lingering death. I cut off his head, and then, with a trembling hand, I opened his body and explored the suspicious protuberance. My knife grated against something hard, and—yes I caught the glitter of some shining substance. Imagine my feelings, when, with a beating heart and trembling hand, I drew forth—"

"The ring, uncle?" breathlessly asked Nellie.

"No, my dear. Only a piece of green glass!"

The general consternation and indignation may well be imagined.

NEWSPAPER POWER.—Thirty years ago, says *Wilke's Spirit,* the orators ruled America, to-day it is ruled by the editors. There is a class of men among bankers, merchants and lawyers who affect a condescension toward the journalist which is immensely amusing. The writer for the newspaper appears to their blinking eyes as a kind of literary adventurer, who is to be tolerated for his genius, but not to be trusted in business. They are ignorant that a newspaper sells their goods, furnishes all their facts, and furnishes them gratuitously with its opiniens. They do not know as Jay Cook does, that the newspapers of America sold two thousand millions of national bonds. They do not know as Edwin M. Stanton knows, that the newspapers of America sent five hundred thousand men to the war. They do not know that the newspapers of America will nominate the candidate for the Presidency, determine the election, dictate the legislation of Congress. Newspapers lead them by the nose wherever they go, but they do not feel the pressure, which is the particular reason why they give this particular tweak.

INTRODUCTIONS.—To introduce persons who are mutually unknown, is often to undertake a serious responsibility, and always to certify to each the respectability of the other. This responsibility, then, should never be undertaken without first ascertaining whether it will be acceptable to both parties to become acquainted. Always introduce the gentleman to the lady—never the contrary.—This rule is to be observed everywhere socially; or otherwise, the gentleman is the acknowledged superior. The chivalry etiquette assumes that the lady is invariably the superior by right of her sex, and that the gentleman is honored by being presented. Where the sexes are the same, present the younger to the elder, the unmarried to the married, or the inferior in social rank or talent to the superior. A gentleman should never be introduced to a lady without first asking her permission. Upon introduction, most people limit their recognition of each other to a bow. Shaking hands is reserved until the parties shall have become friends.

A STUPID fellow tried to annoy a popular preacher by asking him whether the fatted calf of the parable was male or female. "Female, to be sure," was the reply; "for I see the male"—looking his questioner full in the face—"yet alive in the flesh before me."

THE "game of life" is very much like a game of cards. Time deals, death cuts, and everybody is waiting for the last trump.

UNITED STATES DEPUTY LAND SURVEYORS IN CALIFORNIA.

The following correspondence will be read with interest by all having business to transact with the United States Deputy Surveyors in the districts of this State:

DEPARTMENT OF THE INTERIOR
GENERAL LAND OFFICE,
March 31, 1868.

Gregory Yale, Esq., San Francisco, Cal.—Sir: I have received your letter of the 30th of January last, in which you call my attention to the prevailing practice among the United States Deputy Surveyors in some of the land districts, under the Mineral Instructions of Jan. 14, 1867, of making contracts with the owners of lode claims in the capacity of such deputies; then to prosecute the claims before the local land officers, and charging several hundred dollars for such services. Such proceedings, in your opinion, being unauthorized by this office, leading to a gross public abuse, and known to you personally, induced you to communicate the same to me as well as to the Surveyor-General.

In reply, I have to say that the attention of the Surveyor General has this day been called to the subject matter of your complaint, copy of which is herewith transmitted to you for your information.

I am very respectfully your obedient servant, J. S. WILSON, Commissioner.

DEPARTMENT OF THE INTERIOR,
GENERAL LAND OFFICE,
March 31, 1868.

Lauren Upsm, Esq., Surveyor General, San Francisco, Cal: Sir: In furtherance of that portion of our circular of mineral instructions of January 14, 1867, at page 4, in regard to estimates required on the part of Surveyor General for surveying, platting, and the cost of publication of notice, the amounts of which the applicants are required to deposit before the survey of mineral claims is ordered, I enclose a form of estimate which has been adopted as meeting the requirements of the mineral law and our instructions, and which you are requested to use in your surveying district.

I also enclose a copy of a letter, dated 30th January last, from Gregory Yale, Esq., and in reference to the subject of his complaint, I draw your attention to the fact that the departmental instructions to which he alludes do not authorize United States Deputy Surveyors to prosecute claims before Registers and Receivers of the public lands.

The resident mineral surveyors appointed by the Surveyor General for different mineral districts are required to survey such claims as the Surveyor General may be called on to execute in accordance with the Mineral Law of July 2d, 1866, and the aforesaid instructions of the 14th January, 1867, contemplate the survey of claims by District Surveyors only when called for by claimants entitled to survey, they cannot proceed to the work until the Surveyor General issues his instructions to the deputy, having previously ascertained that diagram and notice had been duly posted for 90 days; that the necessary deposits had been made based on the Surveyor General's estimates covering the cost of the platting and advertising notice.

These prerequisites under the law are an insuperable interdict against any survey being made of lodes and adjacent grounds until the applications shall have been formally made to the Register and Receiver, and fully acted upon by them as the law requires, the Surveyor General having no legal authority to sanction any premature proceeding.

You are instructed to caution your deputies to take care and not transcend their legitimate duties, and if my orders have been given to them by you under even the color of which a premature survey of lode claims had been authorized you will at once revoke such instructions.

You are requested to report at your earliest convenience any action that may have been had by the United States Deputy Surveyors in contravention of the aforesaid law and instructions.

I am, very respectfully,
Your obedient servant,
JNO. S. WILSON, Commissioner.

A French chemist has recently been experimenting to find an essay and cheap way of making wood incombustible. He reports chlorid of lime to be the best agent for this. It is true that this will not protect the surface, but it will prevent the flames from spreading. Chloride of lime, or, more properly, chloride of calcium, is obtained on a larger scale, by decomposing bones with hydrochloric acid, which dissolves the calcareous part without attacking the galantine they contain. This neutral and liquid chloride contains 45 per cent, of anhydrous chloride. To this liquid an equal weight of slacked lime should be added, and it may then be applied to the woodwork to be preserved. The operation should be repeated twice with a common white-wash brush,

RETRACTS.—At a press banquet given in his honor in New York, on the 17th, Dickens made a speech in which he publicly retracted all the slanders uttered by him in "Martin Chuzzlewit" and elsewhere concerning the people of the United States. The universal kindness with which he has been received, notwithstanding his ill-natured misrepresentations of American institutions and character, appears to have melted his heart, and he repents of the injustice he has done. He promises to write no more such books, and hereafter to destroy the poison contained in "Martin Chuzzlewit" and "American Notes," by placing an antidote in the shape of an appendix to each of these volumes. He appears to be most favorably impressed with us this time.

To endure present evils with patience and wait for expected good with long suffering, is equally the part of the Christian and the hero. Those evils would break a proud man's heart, that would not break an humble Christian's sleep.

THE CELEBRATION.—The morning of the 27th April was ushered in in all the beauty and grandeur of nature. The committee having made all necessary arrangements, the delegations who arrived on the different routes were properly received and cared for to the extent of the hospitality of our citizens, regardless of being connected with the Order. Representatives from the following named lodges honored our town with their presence: Oustamah, Nevada; Grass Valley; Brooklyn, Red Dog; those of Placer being Auburn, Washington, Yankee Jims; Covenant, Forest Hill; American, Lincoln; Mountain, Michigan Bluff. At one o'clock, Olive Lodge, No. 81, under whose auspices the celebration was conducted, under direction of N. W. Blanchard, Marshal, with C. M. Kopp and J. T. Mathewson, formed in front of their hall and marched up to the Golden Eagle hall and Good Templars' hall, at each place the brethren of the Order joined in the rear of the procession; when formed, the procession preceded by the elegant brass band from Grass Valley, took its line of march down Main street to Sacramento, down Sacramento to Stockton, and up Stockton to the arbor that had been made across Main, where a large audience of ladies and gentlemen had already assembled. After the members of the procession had been seated, the band played a national tune when the Rev. J. E. Benton, who had been selected as the orator for the occasion, offered a prayer to the throne of grace for guidance and Divine protection and blessing upon the works of Charity and Benevolence, of the organization whose anniversary was being commemorated. The oration was well received and gave general satisfaction to those to whom it was more particularly addressed. After which one of the beautiful Lodge odes was sung by the members, when the procession was reformed and visiting brethren escorted to the several places from whence they had been taken. In the evening about sixty couples of ladies and gentlemen assembled at the theater which had been beautifully decorated for the occasion, and under the inspiring strains of music from the band enjoyed the pleasures of the dance until 12 o'clock, when the party adjourned to supper at the Placer Hotel where all the delicacies of the season had been artistically prepared to tempt the appetites of the guests, and to which ample justice was done, when the party again repaired to the theater and indulged in the "giddy mazes of the dance" until old Sol warned them of the birth of another day, when the joyous participants repaired to their several stopping places delighted with the enjoyment that had been prepared for them, and breathing expressions of thankfulness to Olive Lodge for the rare opportunity of affording them a feast of reason and intellectual and pleasant recreation. Many will doubtless remember the day and night with feelings of pleasure, and the committee of arrangements deserve credit for the very ample manner in which everything was prepared for the proper entertainment of the guests.

EIGHT HOUR STRIKE.—Work on the Deaf Dumb and Blind Asylum, says the Oakland *News*, has been stopped on account of a strike by the stone-masons. They refuse to work more than eight hours a day, and the contractor, Emery, instead of yielding to their demands, got his back up, and discharged them. The masons were entirely right, and Emery, by his parsimoniousness, has shown himself unfit to have charge of a set of men who have any self-respect. It is said that the work will be resumed as soon as "efficient *ten*-hour men can be procured." Of course, but where is he to find "ten" hour men who are efficient? Not in California, unless he pays extra for all work done over eight hours. This great work is to be retarded because of the niggardly disposition of the contractor, or the asylum destined to ameliorate the condition of thousands by the beneficence of our State is to be erected through the life-throes of our mechanics and artisans, and that too in face of a law upon our statute book making a certain number of hours a legal day's labor! The contract should be taken from him, and he made to swallow the pill he is offering others.

INFORMATION WANTED.—We are desirous of finding out the whereabouts of one Granville Zachariah, who *appropriated* to his use and benefit a certain cream-colored mare belonging to us, and who has neglected to make things connected therewith satisfactory, although repeatedly requested so to do, notwithstanding which he has utterly neglected to either bring back the aforesaid mare or render any equivalent for the same. He may think this a smart trick, but we know of several "*gentlemen*" who are laboring for the good of the State for smarter tricks than this. We don't know what *he* calls it, but it looks very much like horse stealing to us, who are minus an animal without consideration. Said Zachariah is light complected, blue eyes, sandy hair, five feet eight inches high and about thirty-five years old, and formerly lived at Meadow Lake.

FRATRICIDAL AFFRAY.—On Monday, April 22d, a most melancholy occurrence took place in Yuba county between two brothers named Joseph D. and Thomas S. Inlow which resulted in the death of the latter. The difficulty occurred about the possession of a pair of horses, when Thomas drew a knife on Joseph who struck his brother over the head with a pitch-fork handle from which he died on Wednesday following.

THE CELEBRATION.

ED. ENQUIRER:—I was a spectator at the Odd Fellow's celebration in this place on last Monday and trust that I was duly impressed by the imposing ceremonies of the occasion. I am in the habit of thinking upon that which I observe and now beg to inquire concerning the object of such public displays by secret societies? The display referred to was given, it is said, in celebrarion of the Forty-ninth Anniversary of the introduction of Odd Fellowship into the United States, which may be a matter of great interest to Odd Fellows, but how can it be supposed to concern other fellows and the general public? Why should the members of an Order founded in secresy seize upon the occasion of a private anniversary to exhibit themselves in public? Why, on the return of the anniversary of the introduction of their Order into the United States, does the craft come rushing down stairs gorgeous to behold, and proceed to blow their horns concerning what great and glorious fellows they are, and to sing and dance before the public? What would the fraternity think if, at stated intervals, the public insisted upon appearing before them with feathers stuck in their hats, in celebration of the introduction of something into the United States which the craft could not appreciate nor begin to comprehend, and which did not, in any degree, affect their precious exi-tence? Can a body of secret exclusives, banded together for private interest and benefit, expect to leap into the street, clad in strange, and, to the profane eye, fantastic regalia, and captivate the sympathy and applause of a naturally derisive populace? Do they expect to do it by their high-toned appearance and the excellence of their performances? What must be the emotions of uninterested observers upon beholding a body of strange fellows marching through the street with Roman swords, wooden axes, crooks and jumping poles variously displayed at "right-shouldered shift," "supported," "shouldered arms," big brethren hooked to little ones and affectionately dragging them on, stepping out to suit their individual gaits and gala fancies, and all looking their file leaders squarely in the heels? What must be the opinion of lovers of vocal music when the brethren come to a halt and grind out their lodge odes? That it is very good music, but could be bettered if each of the brethren would provide himself with an accordeon by way of accompaniment. What must be the opinion of uninterested men of sense after listening to one of the immoderately-immodest self-glorification orations peculiar to these occasions, and particularly to the wonderful panegyric pronounced on last Monday? That the popular hymn "I want to be an Angel," ought to be paraphrased as "I want to be an Odd Fellow," for universal singing, or that possibly the art of blowing frothy buncombe is become one of the mysteries taught in lodges, and that the occasion of said coming forth was to give a finely inflated brother who had reached the sublime degree thereof a chance to blow off. For there must, or ought to be, a cause for such strange displays and strangest vaporings. But if causeless and all unbecoming and unnecessary, still there must be an object. And what is it? For, oddly enough, one has the right to ask, you know, whether he is an Odd Fellow or not. ??

Dutch Flat, April 29.

No matter what may have been the real object of the writer of the above communication, we shall proceed as best able, to answer his inquiry, and in good faith: From time immomrial it has been the custom of certain societies and peoples to hold certain fete-days, some for one purpose and some for another. We learn from ancient history that the Romans observed great events by giving fetes, and had all the people, both bond and free to enjoy themselves on such occasions to the fullest extent; the Greeks as well as other nations also observed anniversaries of great events, such as victories over their enemies and the birth days of learned and good men; and the custom of observing anniversaries has passed down from age to age, until it has become a sacred duty with many societies, both christian and secular. The late celebration, as the writer is aware, was to commemorate the introduction of the Independent Order of Odd Fellows into the United States, and a decent respect for the opinions of the people generally doubtless prompted them to make the ceremonies of a public parade as imposing as possible; they would certainly have been amendable to criticism had they not done so. Their object in observing their anniversary sprung from greatful hearts to the memory of those who had bequeathed to mankind an organization whose imperative laws are "to relieve the distressed; visit the sick; bury the dead; educate the orphan, and support the widow." What more Christian duties could human association require? They keep nothing from the world save those forms that are necessary to give force to the principles and teachings which they endeavor to inculcate into the minds of the members. They do not parade the steets simply that they may be seen, but are not ashamed to publicly acknowledge their affiliation with an Order whose object is to fraternize the world; one of the principles of which view all of God's creatures as brothers, having sprung from one common parent holds no fellow ship with those who would trample them into the dust, and to such offices can they come only with "pure hearts and clean hands," thus acknowledging the truth contained in the holy scriptures that God "hath made of one blood all nations of men for to dwell on all the face of the earth." Acts xvii 26. Can the writer say as much, when he in a factious spirit endeavors to criticise the members of an Order whose sole object is the ameleoration of the condition of mankind? The singing of the beautiful, touching odes peculiar to the Odd Fellows was one of the most impressive exercises of the day, and the critic must certainly come under the ban as described by Shakspear as having no music in his soul and being only

"Fit for treason, strategems and spoils."

Our friend appears to be carried away by the lack of the knowledge to account for the *object* of secret societies appearing in public, and seems to think that the public have an equal right to appear unbidden before secret societies in their lodges? Such, however, is not the case; the difference being that the members of those orders form a portion of the public and have equal rights with the public in all things; while the general public form no part of these societies and consequently have no right to intrude upon their privacy. The regalia worn upon public occasions is such as each is entitled to according to his personal position in the order, and it is a matter of personal pride whether these insignia of one's respectability be plain or "gorgeous," it is a matter which concerns those immediately interested; no one else. We have now endeavored to give the reason for the fraternity of Odd Fellows observing their anniversary—the only one—and we hope we have satisfied two interrogation marks. Their object, as before stated, in being bounded secretly together was to raise as far as possible the condition of man, and in doing so they enunciate certain cardinal principles by which all are to be guided, and none are free to transgress without making atonement to the offended law. Friendship, Truth and Love are practiced in as well as out of their lodges, their devotion is to right, justice and love; they war against immorality and the evil passions in all their varied forms, friendship toward man prompts the contest, the gentle influence of love supply the weapons, truth consecrates the effort and leads to victory. Can the rehearsal of such good deeds of the order be considered as "immodest vaporings" if made public! Can endeavors so sanctified by Him who died that all might live be considered unseemly and out of place? If the relation of facts which tend to the advancement of civilization and Christianity be unbecoming, then those strange people denominated Odd Fellows, who have not satisfied the curiosity of all in advance as to the object or motive of their observing anniversaries notwithstanding "their right to ask" are guilty, and should be so adjudged. Before, however, judgement is rendered, we introduce in extenuation the following beautiful lines expressive of the motives and objects of the Order:

On halcyon wings our moments pass,
Life's cruel cares beguiling;
Old Time lays down his scythe and glass,
In gay good-humor smiling:
With ermine bread and forelock gray,
His reverend front adorning,
He looks like Winter turn'd to May,
Night soften'd into morning.
How grand in age, how fair in youth,
Are holy "Friendship, Love and Truth!"

SUNDAY SCHOOL CONVENTION.—We have before us a circular announcing that a Sunday School Convention will take place in San Francisco on the 2d, 3d and 4th of June next. The object is to compare views and systems of working, and to consult as to how can be best developed more enthusiasm and zeal in this important branch of Christian usefulness. Delegates attending the Convention who pay on either the steamship, steamboat or railroad routes going will be returned free. Entertainment will also be provided for those in attendance by their notifying W. H. Codington, before the 10th of May.

NEW DEMOCRATIC DOCTRINE.—The Democratic County Convention met at San Leandro a few days ago, after great unanimity got off the following resolve, which doubtless astonished the mover as greatly when he saw it in print as it does the balance of the "great unwashed" who are able to read it. The following is now supposed to be the battle-cry of that party during the campaign:

Resolved, That the rallying cry of the Democratic party is, and ever will be, 'The Union, the Constitution, and the enforcement of the laws made in pursuance thereof!'

Vide, the action of the party for the past seven years.

IT appears from recent news received from Mexico that those who sit in high places are not entirely free from anxiety and care, and that partisan feeling is apt to rage as high in Mexico as it did in Washington in the instance of that insane bigot and murderer J. Wilkes Booth. We learn that the Mexican president Juarez, barely escaped assassination a short time since; the programme much resembled that pursued in the assassination of President Lincoln. Juarez was to have been shot while in his box in the theater, and the plot was discovered but a few hours prior to its contemplated consummation.

ROBBERY.—We gather the following items of the robbery of A. G. Reed, and the subsequent arrest of the robbers at Folsom, from the *Stars and Stripes*:

On Friday, the 24th inst., A. G. Reed who is trading at the Forks House in this county, while on his way from Auburn home by way of Forest Hill, was stopped on the road about one mile this side of the Grizzly Bear House by two highwayman, who relieved him of about $110 in coin and a silver watch of the value of about $50 00. Reed gave immediate information of the robbery to the Sheriff, and pursuit of the robbers was commenced Friday night by deputies Saborn and Rittenger, and continued to Folsom, where they found the objects of pursuit enjoying the luxury of a circus, and immediately arrested them. The names of the parties arrested are given as J. H. Smith, *alias* "Texas," and George Wilson, *alias* "The Dutchman." They were found armed with two pisotols and a knife each. They made some show of resistance, but finding themselves covered by the weapons of the officers of justice surrendered and now are safely locked up in the jail in Auburn.

CONVENTIONS AND ELECTIONS.—Conventions and elections will be held in the different States as follows:

Louisiana, Republican, New Orleans	May 1
New Hampshire, Republican, Concord	May 5
Illinois, Republican, Peoria	May 6
Iowa, Republican, Des Moines	May 7
Minnesota, Republican, St. Paul	May 13
National Soldiers', Chicago	May 10
National Republican, Chicago	May 20
New Jersey, Democratic, Trenton	June 10
New Jersey, Republican, Trenton	June 18
National Democratic, New York	July 4

The election on Reconstructian will be held in Florida on May 4th, 5th and 6th.

THE EFFECT.—As an indication of what every one had a right to expect is beginning to be felt from the discovery of the Blue Lead being made public, we find in the Grass Valley *National* of April 29th:

Frank Beckett, who has been up to German Level—vulgarly called Dutch Flat—informs us that the discovery of the great blue lead there is a verity. He saw some of the dirt which had been taken out of the shaft, and it looked splendid indeed. Property at Dutch Flat had augmented in value fully one hundred per cent. since the discovery, and business of all kind has become lively in consequence.

NEW STAGE ROUTE.—Cyrus Cutler has just returned from a trip to Woodland, Yolo county, where he has been making arrangements for the establishment of the contemplated new stage line. He says that the residents along the route are delighted with the proposal and promise to patronize the undertaking with a will. He expects to place a fine four horse coach on the line next month, starting from Woodland at four o'clock in the morning and landing his passengers in Suisun before nine o'clock in time for the departure of the San Francisco steamer.—*Solano Press.*

COMPARISONS ARE ODIOUS.—John R. McConnell it seems has not impressed the editor of the *Dramatic Chronicle* very favorably with his series of articles on slavery, which were to convince everybody that slavery was divine, and that John R. McConnell was its great oracle. In its issue of Tuesday the *Chronicle* says:

He could not hold his own for 20 minutes in a discussion with Fred. Douglas, or Chas. Raymond of Ohio. He could not play "Hamlet" or "Othello" as Ira Aldridge the negro actor played those parts. And we do not believe that he could edit a newspaper with one-half the ability of Bro. Bell of the *Elevator*. If we were to take McConnell as the representative of the white race, the palm would certainly have to be awarded to Africa.

DESTRUCTIVE INSECT.—An insect is creating sad havoc among apples, pears and mulberry trees, in the neighborhood of Woodland, Yolo county. The *Democrat* says the bug is about one-third of an inch in length, brown in color, and of a voracious appearance. It bores into wood, cutting off branches as large as a man's finger.

J. H. WARWICK'S LECTURES.—Our readers will doubtless remember we advised them of the intention of Hon. J. H. Warwick to proceed East for the purpose of lecturing on "California, its products and resources." We are just in receipt of a letter from Mr. W. dated New York, March 12. He informs us that he has been laboring incessantly, and the immense tide of immigration now setting this way fully attests the influence he has exerted, and our people will, without doubt properly appreciate his labors. We give the following extract from a New York daily in order that our readers may know what the press in our largest business emporium thinks of Mr. Warwick's efforts:

California, even in the prosaic age which has followed with the growth of the population of that State, has never ceased to be a region of more or less romantic interest to us of the Atlantic slop. In this far distant land were first realized, after centuries had passed away, those dreams of the early Spanish discoverers which pointed to a spot, somewhere in the Western World, in which the search for the metalic treasure would result in the consummation of the long hoped-for Dorado—the Land of Gold. How truly this State has proven the world's Dorado, the almost limitless wealth which has issued from its teeming soil conclusively shows. What additional riches shall spring in the future from this fruitful source of plenty can only be conjectured, and, in forming an idea upon this subject, we may best be guided by those opportunities of knowing are the result of investigation and of acquaintance with the yield of the mines. The lectures recently delivered by Mr. J. H. Warwick of San Francisco, upon the subject of the mining history of California, are valuable as indicating the origin, progress and growth of the system of working the quartz mines, the temporary causes which may have operated against their prosperity, and their present condition in regard to profits and expenses. Mr. Warwick's statistical facts upon these matters were fully explanatory of the subject, and much desirable information in reference to the existing progress of the mines was given. In the race for prosperity, California must submit to the rivalry of those infant Territories Idaho, Montana and Colorado, which, holding in their hands the horn of plenty, tempt the wealth seekers to their bounteous lands and pastures. Ever restless and ever eager after new fields of enterprise, the American heart turns to the West for the fruition of its hopes of fortune. In that vast region lie dormant the elements which, when aroused to usefulness, shall produce additional individual and national riches; and welcome, indeed should be those who, to the unfamiliar with these matters, unfold the story of our Dorados of the West.

THE CALIFORNIA LABOR AND EMPLOYMENT EXCHANGE.—Says the *Alta* of the 29th ult., the California Labor and Employment Exchange opened for business at 9 A. M. yesterday morning, and the report of the first day's work is a most promising one. Upwards of 300 persons applied for work, more than half of whom had their names registered as being willing to accept employment, and the majority of these latter were immediately directed to persons requiring their services. The Managers have to exercise a certain discrimination with regard to persons applying for situations, and by doing so save much unnecessary trouble to employers. Under these circumstances, we would suggest that manufacturers, agriculturalists, contractors, merchants and others can on their part expedite the working of the Exchange by sending in their orders promptly. Among the applicants there are of course many persons who have a particular occupation or trade, or none at all, and can fill only certain situations, such as small clerkships, etc. For such situations there are always ten applicants to one vacancy in this as in every other city, and it is almost useless for anybody to apply for employment of that kind; in fact the Exchange was not established with a view to meet the demands of this class, but of actual maual laborers, who can aid in developing the resources of the State. Nevertheless, the names of such applicants are taken down and situations provided when possible. A number of orders for workmen for particular kinds of business are yet to be filled. The Exchange promises to become a decided success and a great benefit to California.

SANTA BARBARA COUNTY.—The petroleum speculations undertaken in Santa Barbara county, says the *Alta*, four or five years ago, turned out very disastrously, for a time at least, but it is said that the value of land has increased so much there of late that some of those companies who bought large ranches will make a fine profit on their investments after all. Considerable tracks that could scarcely find a purchaser in 1862; at fifty cents per acre, are now in demand at $10, $15 and $20. The new settlers have made roads, planted olive, mulberry and almond, besides the more common fruit trees; and some of the neighborhoods make a very neat appearance. They are not far from landings, and they can get their grain to market as cheap as can the farmers in the Pajaro and Russian Valleys.

CLOSED.—The registration of voters for our city, says the Virginia *Trespass* of April 25th, closed at 6 o'clock last evening, 2,604 names being upon the list. Some may be stricken off and some may be placed upon the list by mandamus; a few have left the city since becoming registered, and a very few may leave between this and the 4th prox.; but considering that the whole registry is made within a few weeks of the election; we think that there will be a poll of 2,500 votes on election day.

NEW TELEGRAPH COMPANY.—There has been organized in the city of San Francisco a new Telegraph Company to run a line between San Francisco and Chicago, and all intermediate points. The line will be shortly in operation between Sacramento and San Francisco, and will be extended eastward without any unnecessary delay. The competition between this line and the old one will doubtless tend to cheapen telegraphic rates.

LAST night, says the *Times* of the 29th ult., the standard-bearers of the Democracy appeared in very different roles. H. H. Haight, cadidate of the "unterrified" for President of the United States, toasted "our honored guests," the Chinese mandarins, at the Lick House, while S. B. Axtell held forth to the Anti-Coolie men at Terpischore Hall. Could anything better illustrate the adaptability of Democratic principles?

FIGHTS.—It is astonishing what beastly exhibitions men will make of themselves on the most unseemly occasions. There can be no celebration—no matter for what purpose—but some men, ordinarily quiet and unobtrusive, will consider themselves licensed to get aboard a sufficient quantity of "Jersey lightning" and make a disgusting show of all their worst passions, marring the general feeling of others. We are reminded of this proneness to evil from the fact that a row occurred here during the Odd Fellows' celebration between four persons entirely unconnected with the Order. Such disgraceful scenes should be stopped.

FIRE.—We regret to learn that a fire occurred at the Eureka Hair Factory on Saturday evening last, destroying some sixty tons of crude soap root. The fire is supposed to have been the work of an incendiary, as there had been no fire nearer an hundred feet of the spot where the soap root was for ten or twelve hours before.

ACCIDENT.—One of the employees at Doan's Saw Mill had his left hand badly mutilated on Saturday last by accidentally coming in contact with the saw. Dr. Nelson was immediately called and amputated two of his fingers.

WASHED OUT.—The paving of sixteen sluice boxes in Mr. Taef's claim was washed out on Thursday last, greatly incommoding operations in that gentleman's claim as well as inconveniencing others below him.

MINING ITEMS.—Preparations are being made to resume operations on the Dutch Flat Shaft. We have no doubt, from representations made to us, that the owners in this company will be rewarded with as good prospects as those already obtained by the Franklin company when the shaft shall have been sunk deeper.

THE Waukegan Company, who have the highest pressure in the place, had their water chest blown from the main, on Thursday last to a distance of one hundred yards. An eye witness declares that the air was darkened with gravel, timbers, ropes stakes, hose and six inch pipe.

KIDDER & Co. made another good clean up during the week, and are now engaged building a new telegraph and extending their pipe in order to obtain the pressure necessary to enable them to work their claims in a still more advantageous manner.

THE Dutch Flat Company, we learn, made a remarkably fine clean up during the week, but owing to the reticence of those concerned we are unable to state the amount. We are much obliged to some of our mining friends for furnishing us with data whereon to make our paper interesting.

THE Rough and Ready claims commenced washing on yesterday. This is an old claim and with the systematic manner in which operations will be carried on under the judicious management of Mr. Endean, we may confidently expect a large yield.

NARROW ESCAPE.—General Tom Thumb and suite are reported by the Eastern papers to have narrowly escaped drowning lately, during a severe snow storm, at Fond du Lac, Wisconsin. The water flooded the streets of that city, and entered the apartments occupied by the distinguished visitors, which were filled to the depth of six inches. Another foot of water would have drowned them out.

EXPAND THE CHEST.—Those in easy circumstances or those who pursue sedentary in-door employment use their lungs but little, breathe but little air into the chest, and thus, independent of position, contract a wretchedly small chest, and lay the foundation of ill-health and decay. All this can be perfectly obviated by a little attention to the manner of breathing.

Recollect that the lungs are like a bladder in their construction, and can be stretched open to double their size with perfect immunity from consumption.

The agent, and the only agent we require, is the common air we breathe, supposing, however, that no obstacle exists external to the chest, such as tying it around with stays, or having the shoulders lie upon it. On arising from your bed in the morning, place yourself in an erect position, the shoulders thrown off the chest, now inhale all the air you can, so that no more can be got in, now hold your breath and throw your arms off behind, holding your breath as long as possible. Repeat these long breaths as much as you please. Done in a cold room is much better, because the air is much denser, and will act much more powerfully in expanding the chest. Exercising the chest in this manner will enlarge the capability and size of the chest.

WHY can a white man get madder than an Indian? Because white heat is hotter than red.

THERE are some inconsistencies in this world that I do not exactly understand. Everybody is anxious to go to heaven, but nobody is in a hurry about it.

IF a man is without enemies I wouldn't give ten cents for all his friends. The man who can please everybody hasn't got sense enough to please anybody.

I think men drink in crowds because they are afraid to drink by themselves. It requires a good deal of courage to stand up alone and pour a glass of whiskey down your throat.

"WHY did Joseph's brethren cast him into the pit?" asked a school teacher of a class. "Because," replied a young lady, "they thought it a good opening for a young man."

SOME years since, while residing in the city of Providence, we heard much said in Praise of Perry Davis' Pain Killer. We listened incredulously to these testimonials. Well, health failing, as a last resort, the doctors sent us to Minnesota. The winter was intensely cold, and a terrible form of Neuralgia prevailed among the settlers, and we fell into the grasp of the disease, and day and night, for weeks, endured untold agony. Many remedies were tried without avail. One day, however, a stalwart frontiersman entered the room, bearing in his hand a vial partly filled with a reddish liquid. It was some of the Pain Killer. He had bought in California three years before, and had kept it with miserly care until then. Applying it externally and internally gave immediate relief. Since then, we have recommended it successfully in cases that baffled the best medical skill; and, when we see persons reject this remedy, we recall our own experience, and think that the time may come when pain incurable by other agents, may teach them the value of this great discovery.—*Home Monthly.* c21 1m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sickand troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

1 BETTER THAN 10.

SARSAPARILLIAN!
(PREPARED FROM VACUO.)
The Curative Principle of Sarsaparilla enters largely into the composition of
R. R. R.
RESOLVENT.

One Bottle of Resolvent Better than Ten Large Bottles of Sarsaparilla.

One Bottle will Purify the Blood, and Expel Corruption from the Body!

So swift is this remedy in entering into the circulation, that it has been detected in the blood and urine in six minutes after it has been taken.

☞ 1 BETTER THAN 10 ☜

R R. R. Resolvent cures with astonishing rapidity every form of Chronic, Scrofulous and Skin Diseases, and exterminates all corruption from the human system.

One bottle of Dr. Radway's Renovating Resolvent contains more of the active curative principles of the best Jamaica Sarsaparilla, (Sarsaparillian,) than Ten of the largest size bottles of the mixture sold under the name of Sarsaparilla.

The process adopted by Dr. Radway in securing extracts (prepared in vacuo,) of Medicinal Roots, Plants, Herbs, and other vegetables possessing great curative properties over Scrofula, Chronic, Syphilic and skin diseases, that enters into the composition of the Renovating Resolvent, produces only ONE OUNCE of the pure extract out of 20 lbs of crude roots. The Inert matter that enters so generally in the large bottle mixtures and prepared under the officinal or pharmacopeia formula, is, by Dr. Radway's process, cast aside as rubbish.

One teaspoonful of the Resolvent is sufficient for a dose for all Skin, Salt Rheum, Pimples, Blotches, Sores and Eruptions of the Skin, Humors in the Blood, &c.

One teaspoonful, three times a day, will, in a few days, make the Blood pure, the Skin clear, the Eye bright, the Complexion smooth and transparent, the Hair strong, and remove all Sores, Pimples, Blotches, Pustules, Tetters, Cankers, &c., from the Head, Face, Neck, Mouth and Skin. It is pleasant to take, and the dose is small.

The first dose that is taken seizes on the disease and commences its work of resolving away all diseased deposits, Purifying the Blood, and driving corruption from the system.

The Renovating Resolvent, if used in any of the following named complaints, will positively cure the patient:

Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofula, Syphilis, Fever, Ulcers, Sores, Salt Rheum, Erysipelas, Rickets, Scald Head, Cankers, Sore Legs, White Swellings, Glandular Swellings, Boils, Nodes, Sore Ears, Sore Eyes, Strumous Discharges from the Ear, Opthalmia, Itch, Constitutional Debility, Skin Eruptions, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuralgia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of Passing Water, Calculous Deposits &c.

ALARMING INCREASE OF BLADDER, KIDNEY and CALCULOUS DISEASES.

The annual reports of the Health Commissioners of different cities, show a great increase of deaths from diseases of the Kidneys and Urinary Organs—RADWAY'S RENOVATING RESOLVENT is the only remedy *that has dissolved* calculous concretion.

Its SOLVENT, *diuretic, lithontriptic* and *tonic* properties exceed that of any medicine in the world; it readily assimilates with the fluids, and promotes their exit through the Kidneys, Urethra and Bladder, removing calculous obstructions, and correcting all derangements of these organs.

So swift is this remedy in passing into the circulation, that it has been detected in the urine in six minutes after it has been taken; by adding to the liquid when cold a few pieces of starch, then a few drops of nitric acid, the liquid will change to a blue color. When brick dust, or a thick white deposit, like the white of an egg, (albumen,) is detected in the vessel, or bloody discharges from the urethra, or micturating in drops, accompanied by a burning or scalding pain—the RESOLVENT should be used and R. R. RELIEF rubbed on the spine. &c.

RADWAY'S PILLS being an aperient, soothing, and tonic laxative, are the only purgative medicine safe to administer in these difficulties; their mild soothing and healing properties produce evacuations without irritating the mucous membranes of the bowels, kidneys, ureter, bladder, &c.. or causing straining when at stool.

Price of Resolvent, $1 per bottle, or 6 for $5. Pills 25 cts. R. R. Relief, 50 cts. per bottle. Principal Depot, 87 Maiden Lane, N. Y. Sold by all Druggists and Country Merchants.

REDINGTON & CO.S' COLUMN.

REDINGTON & O.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

SOME OF YOU CAN'T, AND WE pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to supercede all similar preparations. It is not surprising that you should be reluctant to try something else after the many experiments you have made on trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cu YOU If you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

GRAEFENBERG
UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendeny of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y.

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy frend.
ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D ANDREWS,
Superintendent Soldiers' Home,
Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Sold by all Druggists and Stores in every town and mining camp on Pacific coast.

DUTCH FLAT ENQUIRER.

A DILEMMA.

Which is the maiden I love best?
Twenty now are buzzing round me;
Three in their milk-white arms have wound me
Gently—yet I feel no rest!
One hath showered her black locks o'er me,
Ten kneel on the ground before me,
Casting forth such beams of blue,
That I'm pierced—O! through and through.
Bacchus! Gods! What can I do?
Which must I love best?

Tell me—ah! more gently take me
Sweet one, in thy arms!
Tell me—which will ne'er forsake me
Through all life's ills and harms?
Is it she whose blood retreating
From that forehead crowned with pride?
Is it she whose pulse is beating
Full against my unarmed side?
What do all these things betide?
Strong my doubts grow—strong and stronger;
Quick! give answer to my call!
If ye pause a moment longer,
I shall love ye—all.

TALMUDIC MAXIMS.—Professor Stowe, in his paper on the Talmud, read before the New England Historical Genealogical Society, at its recent meeting, give some interesting specimens of the maxims and proverbs contained in that wonderful collection. We transfer a few of the pithiest, as it will be some time before Professor Stowe's paper will be published:

The camel aspired after horns, and the Lord took away his ears.

In defence of early marriage. If I had married at fourteen I could have said to the devil: There you have a sharp stick in your eye.

The man is fire, the woman tow,
And the devil come, the coals to blow.

(The Professor read it, "blow the coals," but a good couplet is made by a slight change in position.)

While the rabbi was fasting, the dog stole his dinner.

Of the field that we reap prematurely, even the straw is good for nothing.

Great is the value of labor, and it honors those who devote themselves to it.

The speculator puts his money on a stag's horns.

Woe to him who builds a big door and has no house behind it.

WHEN an acquintance says: "How are you?" and rushes by you without waiting for a reply, I wouldn't if I were in your place, follow him more than half a mile to tell him I was well.

DECISION and promptitude, even though a man may sometimes err for want of due deliberation will in the long run often be more conducive to success than a slow judgment that comes too late.

MEDICAL.

THE SCIENCE OF HEALTH.

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic biseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers,
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box: the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

FOR ONE DOLLAR.

The Merchants' and Manufacturers'

Jewelry Association

Calls your attention to the fact of its being the largest and most popular Jewelry Association in United States. The business is and always has been conducted in the most candid and honorable manner. Our rapidly increasing trade is a sure guarantee of the appreciation of our patrons for this method of obtaining rich, elegant and costly goods. The sudden stagnation of trade in Europe, owing to the late German war, and recent disastrous financial crisis in Europe, has caused the failure of a large number of jewelry houses in London and Paris, obliging them to sell their goods at a great sacrafice, in some instances less than one third the cost of manufacturing. We have lately purchased very largely of these bankrupt goods, at such extremely low prices that we can afford to send away finer goods, and give better chances to draw the most valuable prizes than any other establishment doing a similar busindss. OUR AIM IS TO PLEASE, and we respectfully solicit your patronage, as we are confident of giving the utmost satisfaction. During the past year we have forwarded a number of the most valuable prizes to all parts of the country. Those who patronize us will receive the full value of their money, as no article on our list is worth less than one dollar, retail, and there are no blanks. Parties dealing with us may depend on having prompt returns, and the article drawn will be immediately sent to any address by return mail or express.

The following parties have recently drawn valuable prizes from the Merchants' and Manufacturers' Jewelry Association, and have kindly allowed use of their names.

Frederick V. Browne, Esq., Treasury Department, Washington, D. C., Piano, value, $450; Miss Anna L. Frost, Waverly Terrace, N. Y. city, Ladies' Gold Enameled Diamond Set watch—value, $300; William B. Emmons, New Orleans, La., Sewing Machine, value, $75; George L. Davenport, Mobile, Ala., Silver Tea Set, value, $200; Miss Lucy Orcutt, Albany, Ill., Sewing Machine, value, $65; Mrs. Mary J. Downing Louisville, Ky., Gold Watch, value, $200; James B. Fowler, Harrisburg, Pa., Silver Hunting case watch, value, $75; Rev. William Peyster, Milwaukie, Wis., Wheeler and Wilson Sewing Machine, value, $125; J. J. Bickford, San Francisco, California, Gold Lined Silver Tea Set, value—$300; Edward L. Rice, St. Louis, Mo., Melodeon, value, $250; Miss Helen E. Sinclair, Detroit, Mich., Diamond cluster ring, value, $225; Horatio G. Frost, Chicago, Ill., Large oil painting value, $200; Mrs. Charlotte E. Hewins, Doniphan, Kansas, Chickering Grand Piano, value, $700, and Music Box, value, $65.

Many names could be placed on the list, but we publish no names without permission. Our patrons are desired to send U. S. Currency when convenient.

HELMBOLD'S BUCHU.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMATION OF THE KIDNEYS CATARRH OF THE BLADDER,
STRAGUARY OR PAINFUL URINATING.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC

is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

Sec. Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and with ut prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writ ign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly-educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT IS the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are, respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.
